- Matriculation Examination

Vaasa High School
2013-2016

Skills

- Organized
- Communication
- Teamwork
- Social skills
- Critical thinking

About Me

Career changer from healthcare to tech. I've traded the operating room for the keyboard! Currently studying software development at kood/Sisu, a hands-on coding school in Finland. Passionate about problem-solving, clean code, and continuous learning.

Outside of coding, I play guitar and sing in a cover band. I've also played football my whole life. Teamwork and rhythm guide everything I do!

Experience:

- **Anesthesia Nurse**

Vaasan keskussairaala, Day Surgery Unit Jan 2020 - Jan 2025

As an anesthesia nurse, I worked closely with a wide range of people and placed strong emphasis on teamwork, which was an essential part of my daily responsibilities. My duties included administering anesthesia and monitoring patients during surgical procedures. I was also responsible for post-operative care in the recovery room, including patient monitoring and discharge preparation.

- **Psychiatric Nurse – Summer Positions**

Acute Psychiatry Ward, Vaasa Central Hospital Jun 2019 - Sep 2019
State Mental Hospital, Men's Intake Ward May 2020 - Aug 2020

Over two consecutive summers, I worked as a psychiatric nurse, providing care and support to patients in both an acute psychiatry ward and a state mental hospital. In addition to gaining hands-on experience in patient care, I developed strong teamwork skills and honed my soft skills, including communication, empathy, and collaboration within a healthcare team.

- **Substitute Classroom Teacher**

Nummen koulu, Vaasa Jan 2017 - Apr 2017

As a substitute teacher, I was responsible for a 5th-grade class over a two-month period. In addition to teaching the standard school subjects, I also instructed students in physical education and woodworking.
